

VANHOSECO PRECAST

This letter is to certify that all Expanded Polystyrene (EPS) used in the manufacture of the Enviro-Cast Wall Panels is Type 1 manufactured in accordance with ASTM Section C578, and has a Flame Spread Index of less than 75, and a Smoke-Developed Index of less than 450.

This will meet the requirements of IRC 2006 Section R314.3 and IRC 2012 Section R316.3 for surface burning characteristics. The Enviro-Cast Wall System is designed to have interior finish of ½" minimum gypsum wallboard (sheetrock) in accordance with IRC 2006 Section R314.4 and IRC 2012 Section R316.4.

Sincerely,

VanHooseCo Precast, LLC
